8/14 Sun.

Day 4

- CAM/ JP Workshop @Footprint Cafe
- Lunch
- Reflection for the 3 days and sharing
- Sightseeing at a recommended place by Cambodian member
- Dinner meeting

Reflection on the trip

I would like you to give a presentation after return to Japan on the following three questions!

After connecting with abroad, what is exploratory learning for you?

Meeting Cambodian participants for the first time, what can you share with them as an educator and what can you not share? (To the people, to the educational system, to the environment)

What have you really learned from the differences between the two countries (environment, national systems, personalities) when you visit Cambodia?

ex1: Japan: The country is mature, rules and systems are firm, and people take precautions.

ex2: Cambodia: The country is immature. People are strong at the last minute and Flexible.

DAY 1

What you learned, impressed, things you want to write down, etc.

DAY 2

What you learned, impressed, things you want to write down, etc.

DAY 3

What you learned, impressed, things you want to write down, etc.

DAY 4

What you learned, impressed, things you want to write down, etc.
